PROFESSIONAL SUMMARY

- Accomplished and results-driven Frontend Developer with 7 years of experience in designing, developing, and optimizing user-centric, responsive web applications.
- Proficient in HTML5, CSS3, JavaScript, and modern frameworks such as React.js and Angular.
- Demonstrated expertise in creating high-performance websites with a strong focus on UI/UX principles.
- Proven track record in reducing load times, improving user engagement, and driving conversion rates through innovative and scalable frontend solutions.
- Skilled in optimizing web performance, ensuring cross-browser compatibility, and implementing best practices to maintain code quality and application stability.
- Adept at collaborating in Agile environments, integrating RESTful APIs, and working effectively with cross-functional teams.

ROLES AND RESPONSIBILITIES

Responsibilities:

- **Web Development**: Assisted in building and maintaining websites using HTML, CSS, JavaScript, and jQuery.
- **Responsive Design**: Implemented responsive design practices to ensure websites functioned well on various devices, including desktops, tablets, and smartphones.
- **Debugging and Troubleshooting:** Identified and resolved front-end issues and bugs, improving website performance and user experience.

Key Achievements:

- **Project Delivery:** Successfully delivered multiple client projects on time, consistently meeting or exceeding client expectations.
- **Skill Development:** Quickly learned and applied new technologies and frameworks, contributing to more efficient project workflows.
- **Collaboration:** Worked effectively within a team, contributing to collaborative projects and improving overall project outcomes.

PROJECTS

- **Project:** TAD(https://tadacademy.com)
